**PLEASE NOTE:** We always prioritize our CSA members, giving you the finest quality crops available each week. Although we strive to provide a high degree of diversity each week, uncontrollable factors, such as weather and deer, some time cause crop failures. Furthermore, the quantity will vary with the season; in early spring, your bag may contain fewer *types* of produce, but as the season progresses and more crops mature, we will pass the bounty on to you! Your signature below indicates that you understand that the weekly subscription may vary in terms of crop content, based on weather conditions and produce availability.
